

Windows

7™

Langkah-Langkah Menginstall Windows 7

1. Masukkan *Installer Windows 7* yang sudah Anda siapkan dan catat *serial number*nya.
2. Atur agar booting awal melalui DVD. Pengaturan dilakukan pada BIOS. Anda bisa tekan *Delete* ataupun *F2* untuk bisa masuk BIOS, atau sesuaikan dengan motherboard Anda. Kemudian Simpan lalu restart.

3. Jika muncul perintah *Press any key too boot from CD or DVD*, Anda bisa tekan tombol apa saja. Setelah itu akan muncul proses *Windows is loading files*, dilanjutkan dengan *Starting Windows*.

Windows

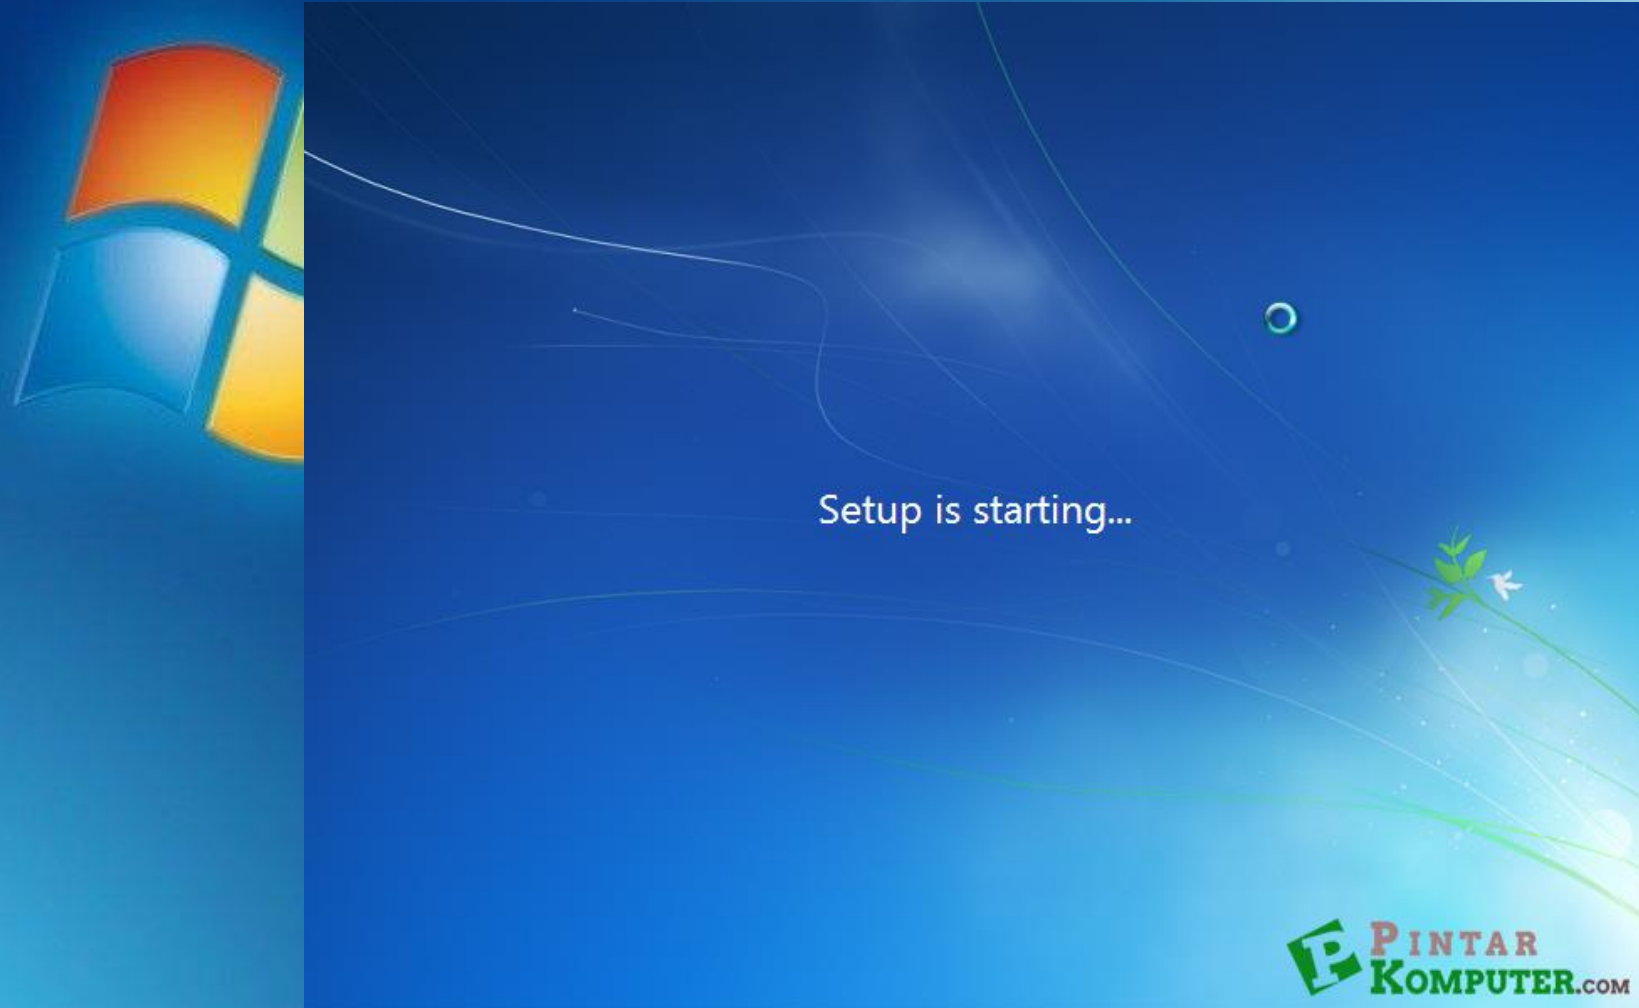

4. Pilih *Language to Install, Time and currency format*, untuk keyboard biarkan *US*. Lalu klik Next.

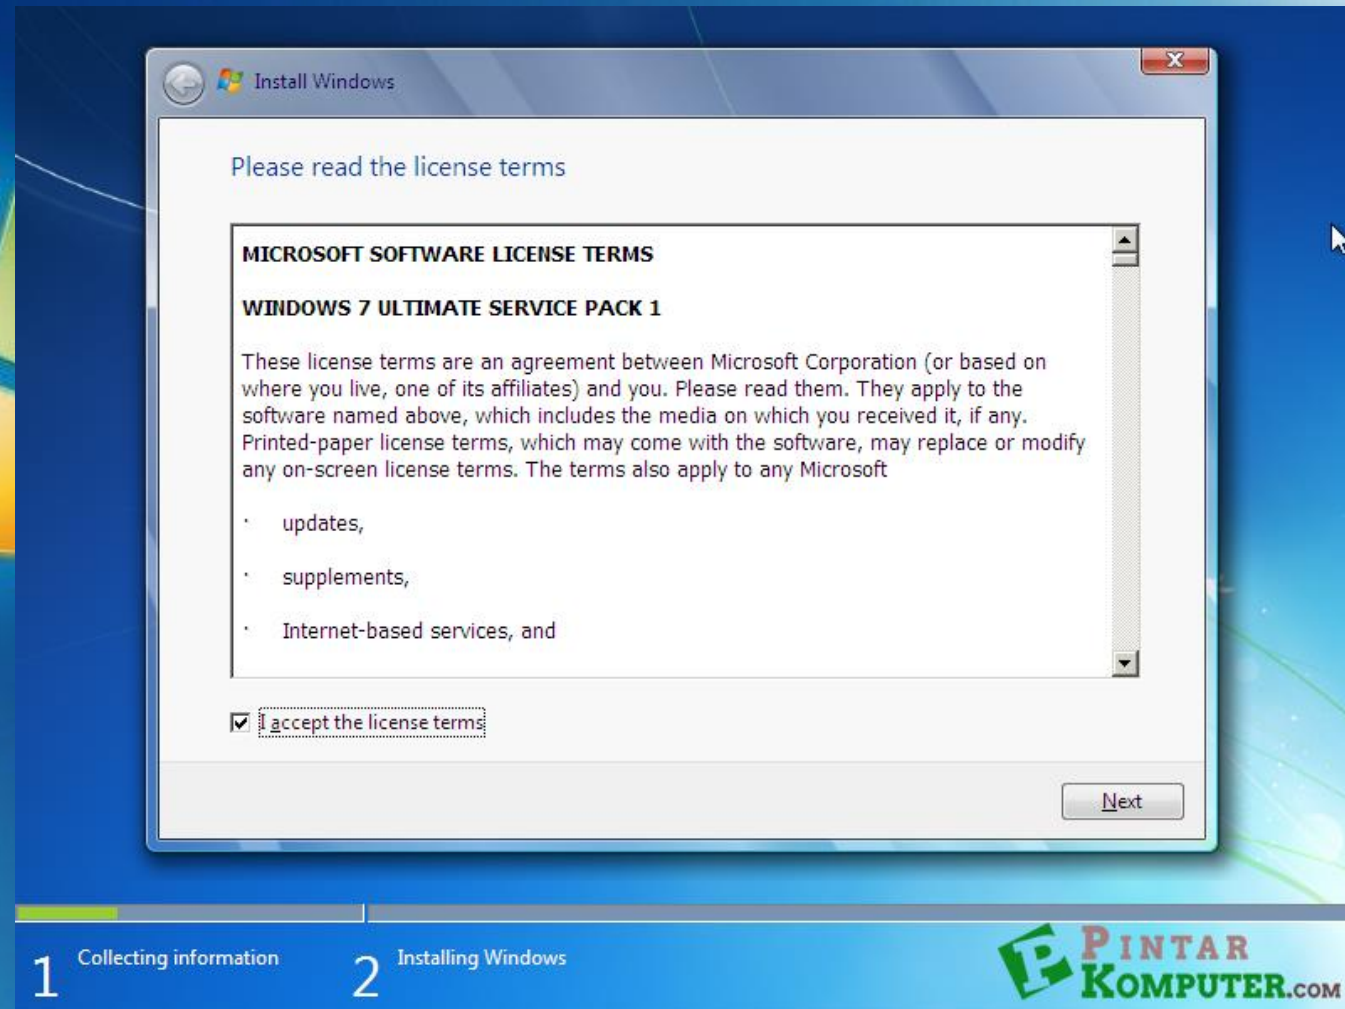

5. Karena tujuan kita adalah menginstall, maka pilih *Install Now*.

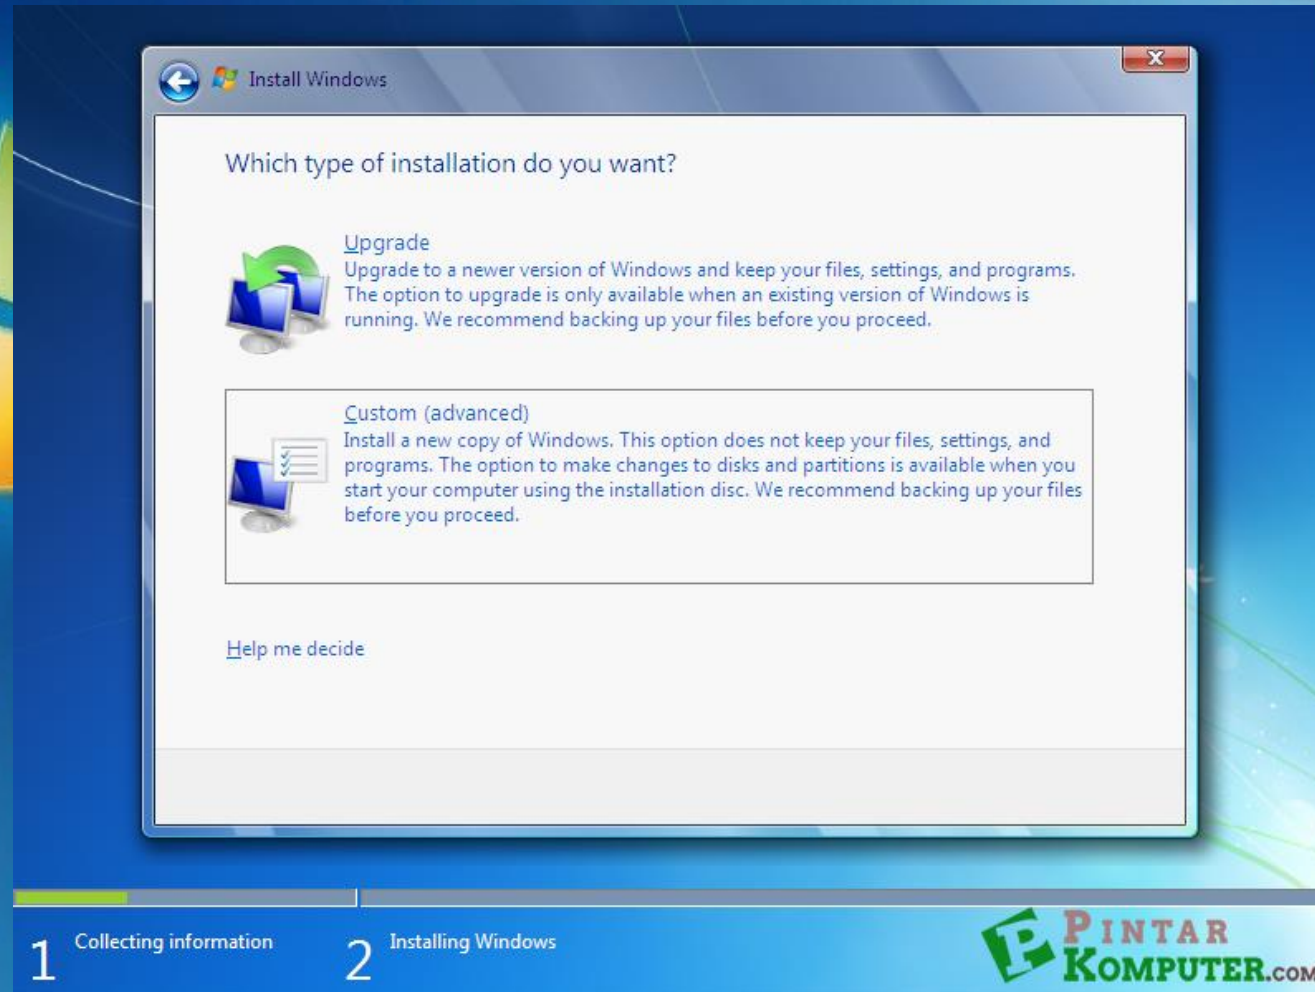

6. Tunggu beberapa saat pada proses *Setup is starting*.

7. Beri centang pada *I accept the license terms*, kemudian klik *next*.

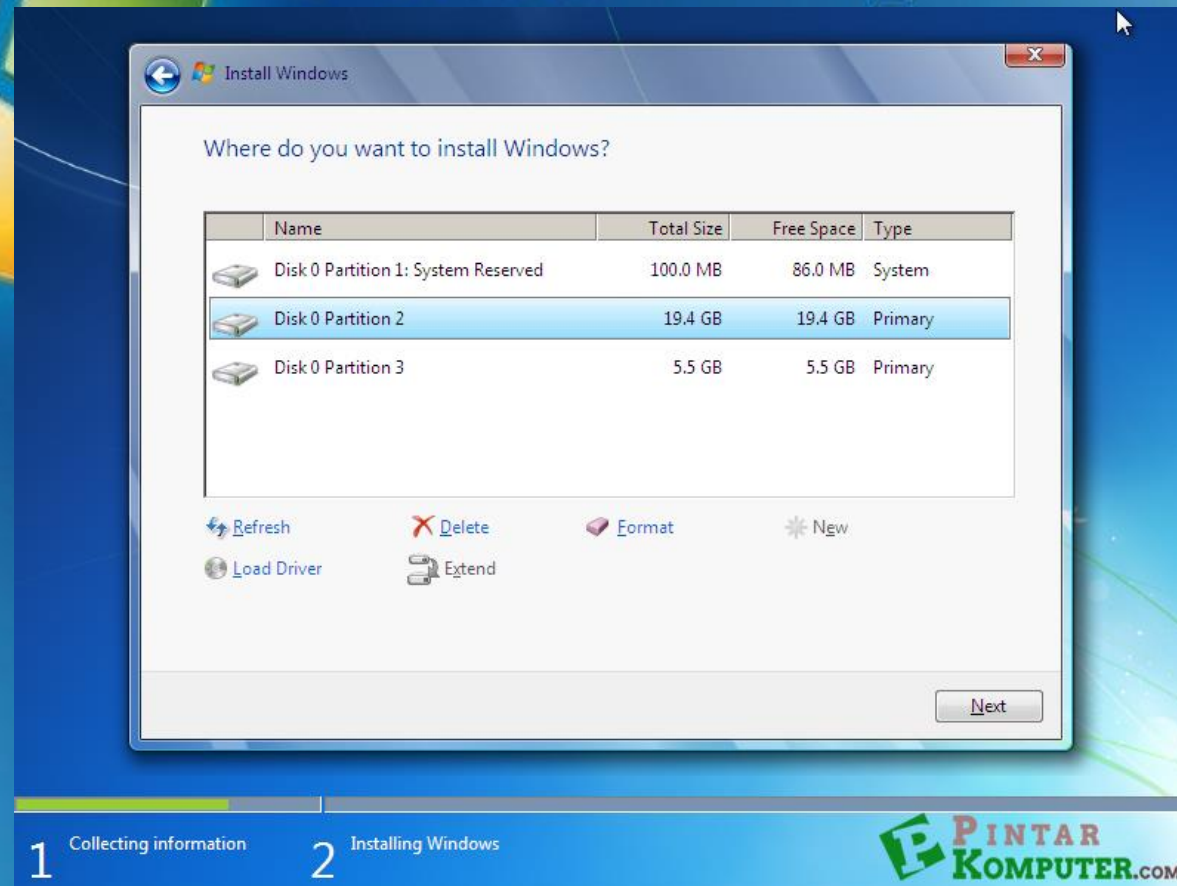

8. Pada bagian ini, pilih saja *Custom (Advanced)*. Agar nantinya dapat memilih di drive mana Windows 7 akan di install.

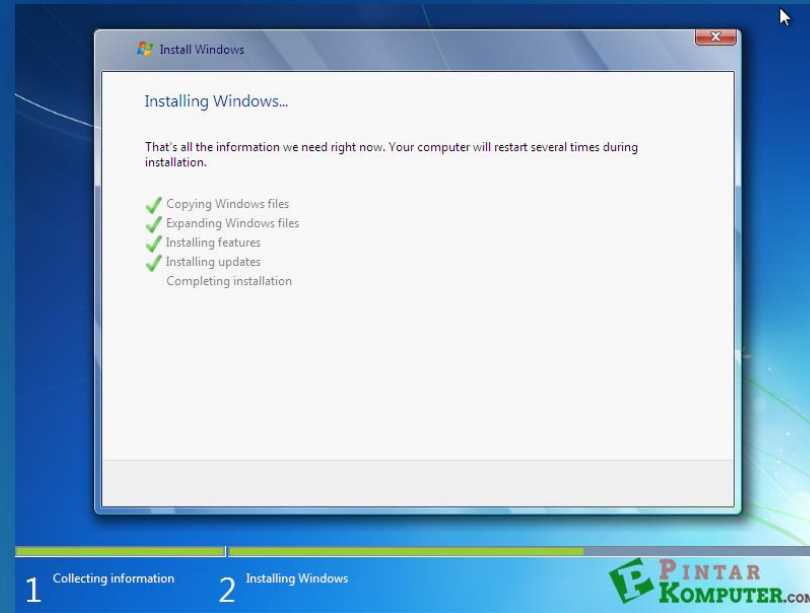

9. Mengatur drive sekaligus partisi pada step ini di sarankan bagilah hardisk minimal 2 drive.

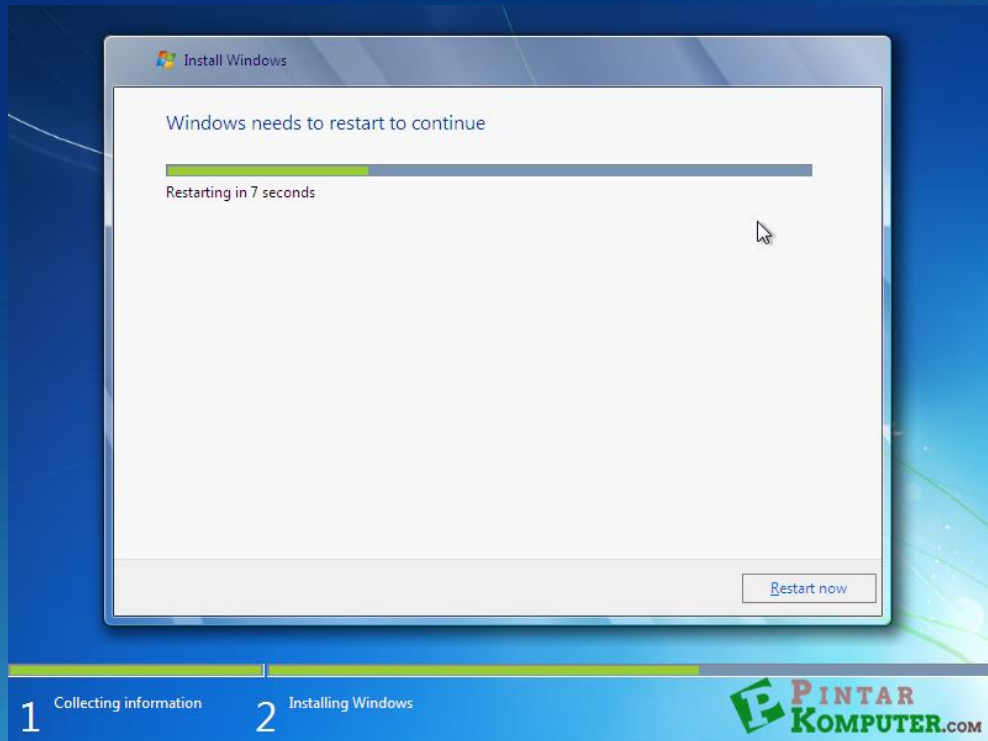

Satu untuk drive untuk windows 7 (C/primary) dan satu drive untuk data (D/logical) dengan memilih *drive option*. Sebelum lanjut, pilihlah *Disk 0 Partition 2* yang merupakan partisi (C). Kemudian klik *Next*.

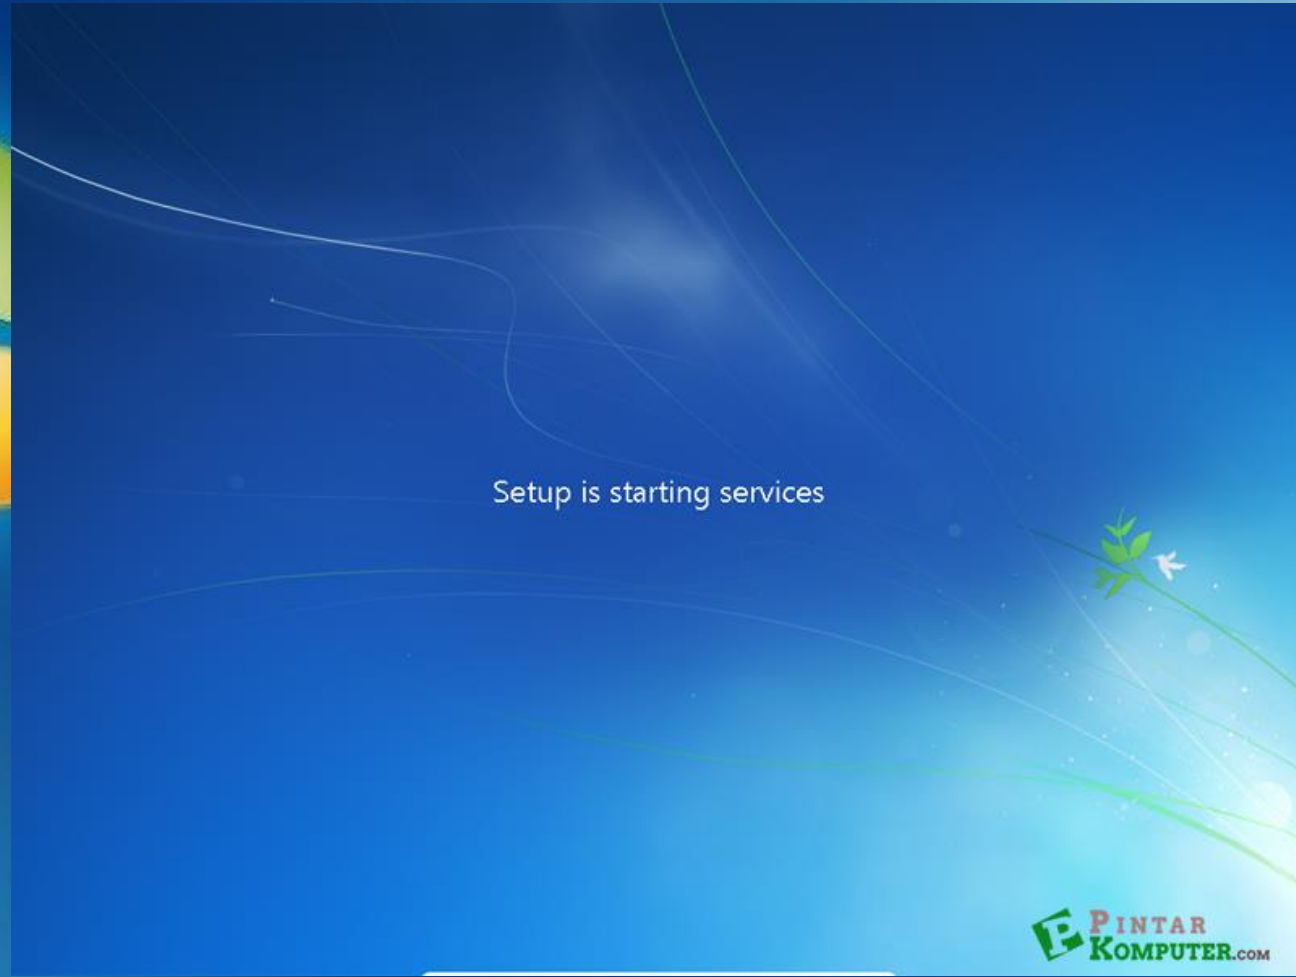

10. Tunggulah beberapa proses instalasi dibawah ini.

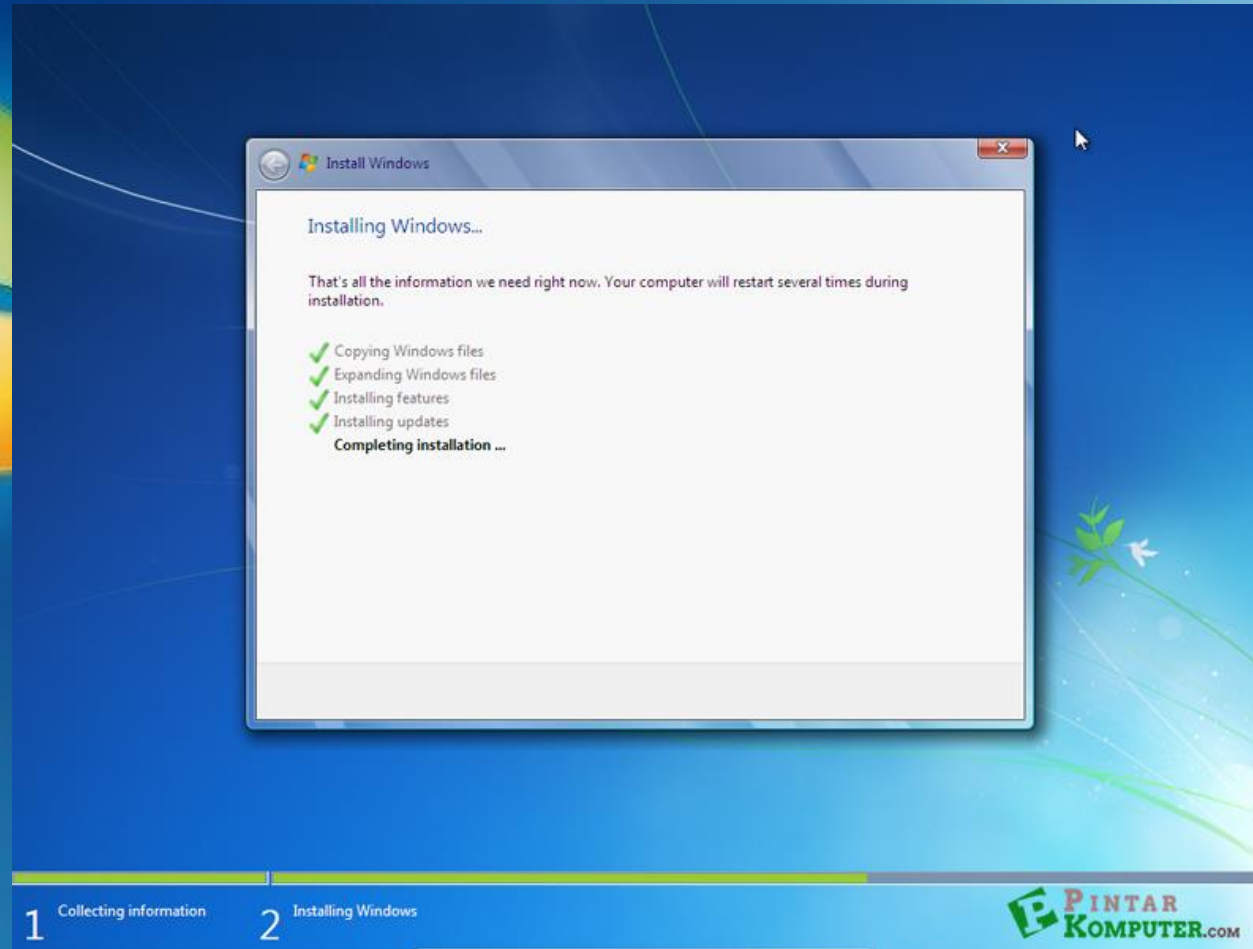

11. Secara otomatis komputer akan *restart* sendiri.

12. Setelah selesai *restart*, tunggulah proses *Setup is starting service*.

13. Proses instalasi akan dilanjutkan secara otomatis.

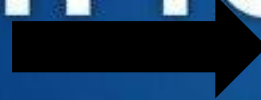

14. Setelah proses instalasi selesai, komputer akan kembali restart.

Setup will continue after restarting your computer

17. Setelah proses diatas, Anda akan diminta memasukkan *Username* dan *Computer Name*, kemudian klik next.

18. Jika diperlukan, masukan password yang Anda inginkan. Langsung saja klik *next*, jika tidak diperlukan.

The screenshot shows the 'Set Up Windows' window with a back arrow icon and the title 'Set Up Windows'. The main heading is 'Set a password for your account'. Below this, a paragraph states: 'Creating a password is a smart security precaution that helps protect your user account from unwanted users. Be sure to remember your password or keep it in a safe place.' There are three input fields: 'Type a password (recommended):', 'Retype your password:', and 'Type a password hint:'. The first field has a cursor. At the bottom right is a 'Next' button.

Set Up Windows

Set a password for your account

Creating a password is a smart security precaution that helps protect your user account from unwanted users. Be sure to remember your password or keep it in a safe place.

Type a password (recommended):

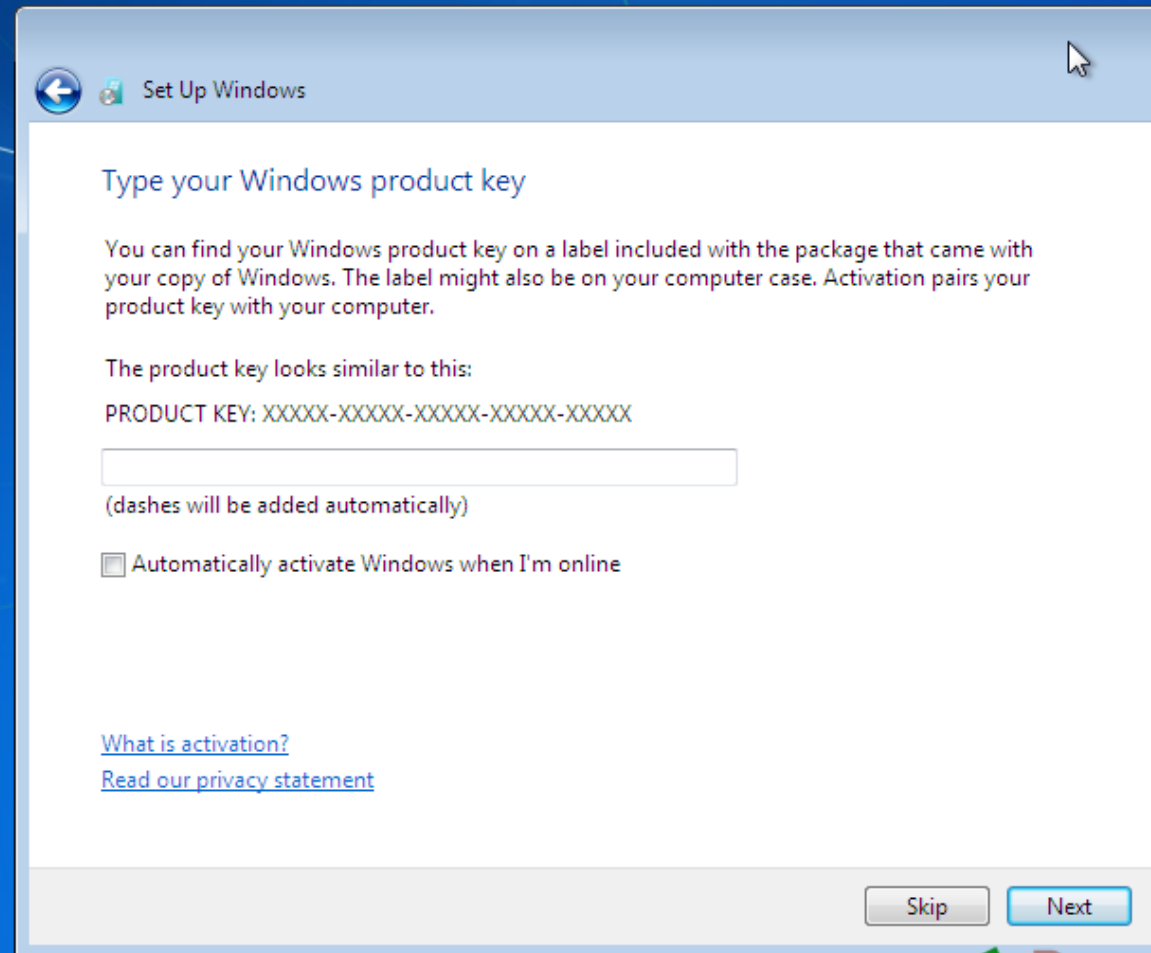

Retype your password:

Type a password hint:

Choose a word or phrase that helps you remember your password. If you forget your password, Windows will show you your hint.

Next

19. Masukkan *Product key*, lalu klik *next*. Jika tidak memilikinya Anda bisa lewatkan dengan klik *skip*.

The screenshot shows the 'Set Up Windows' window. At the top, there is a title bar with a back arrow icon and the text 'Set Up Windows'. Below the title bar, the main heading is 'Type your Windows product key'. A paragraph of text explains that the product key can be found on a label with the Windows package or on the computer case. Below this, it says 'The product key looks similar to this:' followed by 'PRODUCT KEY: XXXXX-XXXXX-XXXXX-XXXXX-XXXXX'. There is an empty text input field below the example. A note in parentheses states '(dashes will be added automatically)'. Below the input field, there is a checkbox labeled 'Automatically activate Windows when I'm online'. At the bottom left, there are two links: 'What is activation?' and 'Read our privacy statement'. At the bottom right, there are two buttons: 'Skip' and 'Next'.

Set Up Windows

Type your Windows product key

You can find your Windows product key on a label included with the package that came with your copy of Windows. The label might also be on your computer case. Activation pairs your product key with your computer.

The product key looks similar to this:

PRODUCT KEY: XXXXX-XXXXX-XXXXX-XXXXX-XXXXX

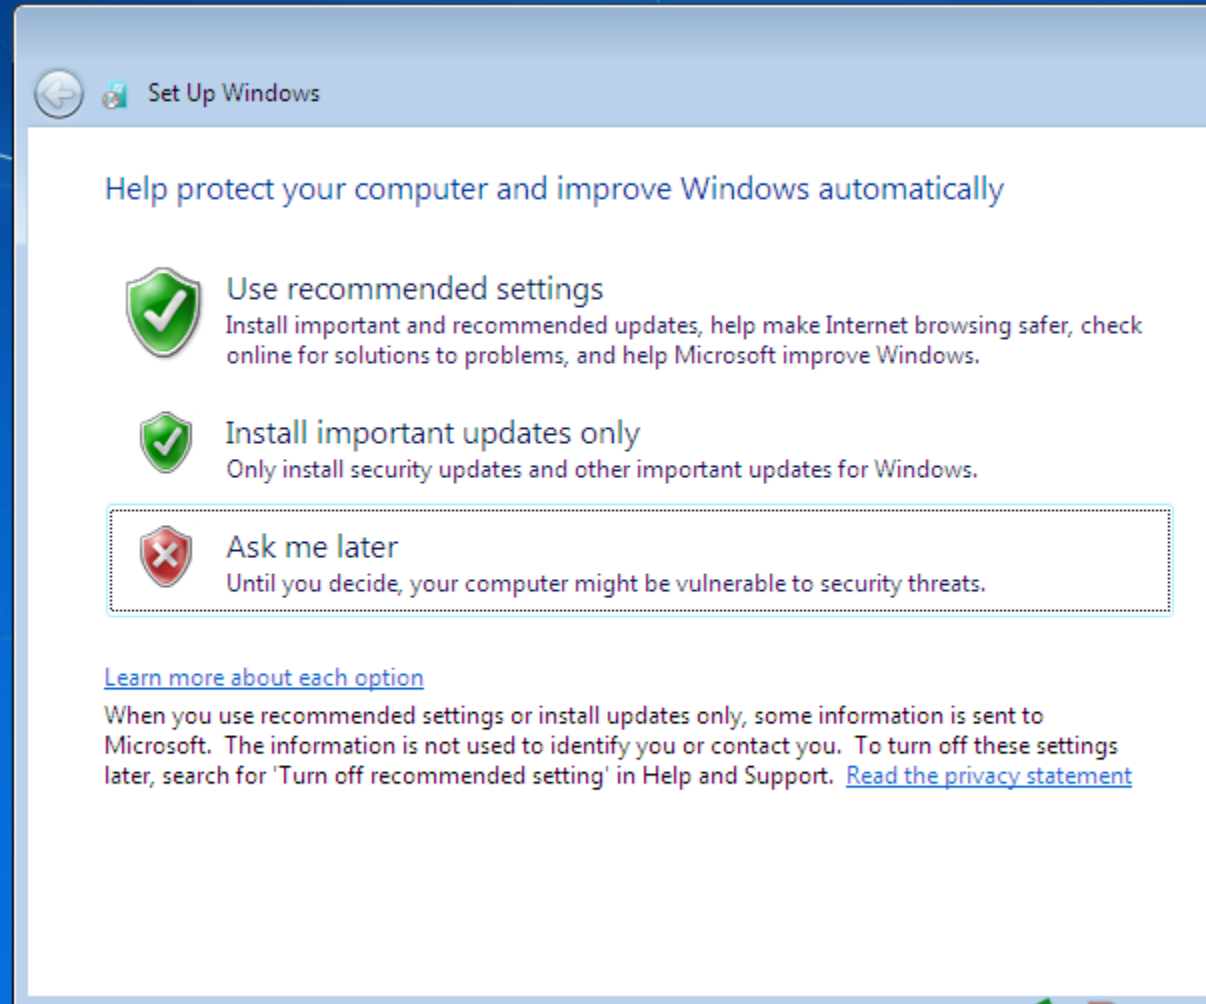

(dashes will be added automatically)

☐ Automatically activate Windows when I'm online
